THE GALLERY

Since its establishment, GALERI PETRONAS has showcased the national and international spectrum of artists in paintings, photography, sculptures, and many more. The diversity of its collections has allowed the artists to share their unique works of art with the public, not only for them to learn but to also inculcate their appreciation towards art.

Apart from displaying exhibitions across a wide range of artistic forms, it also organises regular public events such as art appreciation classes for adults and children, as well as seminars and workshops for cross-disciplinary discussions and other public events. The gallery aims to make art accessible, enjoyable and engaging to the public to captivate audiences to explore the richness of our local and international art.

GALERI PETRONAS has been designed as a multi-functional and flexible space in accordance with international art gallery standards. Apart from the up-to-date equipment and facilities, the space can be easily configured to create separate areas for a variety of needs ranging from quiet contemplation to busy educational activities. It can also accommodate a number of exhibitions simultaneously with interesting exhibition layouts.

PETRONAS plays an important role in preserving the nation's fine artistic heritage and supporting the development of art in Malaysia. The PETRONAS Art Collection includes treasured gifts that have been presented to the corporation by its international business partners over the years. The Art Resource Centre promotes art research and documentation. The centre owns a collection of art books, journals and audio-visual materials for public reference and pleasure. The GALERI Shop allows the public to take home a memento as a remembrance of their visit.

GALERI PETRONAS believes in providing a splendid art experience because art is for everyone.
