

# PETRONAS TWIN TOWERS

Pride of the Nation

MALAYSIA'S **ICONIC EXPERIENCE** IN KUALA LUMPUR

## THE EYE OF KUALA LUMPUR CITY CENTRE

Take in the splendour of the Skybridge, a unique double-deck bridge located at levels 41 and 42 of the prestigious twin towers, measuring up to 58.4 metres in length. Standing tall at 170 metres above the street level, it is supported by a three-hinged arch located at level 29 of each tower and is popularly known as the symbolic gateway into the future, and plays a huge role in facilitating movement between the two towers.

Discover the fascinating facts about the twin towers and the surrounding area displayed on the Video Wall, and the KL City and KLCC Development models at the Observation Deck. Marvel at the latest technology through the Augmented Reality Screens at the Visitor Centre before you begin your journey.

For some relaxed fun, take a walk in the beautifully landscaped KLCC Park or shop to your heart's content at Malaysia's premier shopping destination, Suria KLCC, where the latest in fashion and entertainment will amaze you.

Business and leisure travellers are spoilt for choice as KLCC offers the absolute best in hotel services and facilities. Choose from the luxurious Mandarin Oriental, Kuala Lumpur and the contemporary Traders Hotel or the Impiana KLCC Hotel, all of which are just a short walk from the KLCC Park.

01 PETRONAS Twin Towers

- A** Pedestrian tunnel connecting RAPID KL LRT – Kelana Jaya Line Station to Suria KLCC
- B** Pedestrian tunnel connecting Suria KLCC to Kuala Lumpur Convention Centre
