

“MUSIC IS THE MOVEMENT OF SOUND TO REACH THE SOUL FOR THE EDUCATION OF ITS VIRTUE.”

Plato

## WHERE THE WORLD'S GREAT CLASSICAL MUSIC COMES ALIVE

Strategically located in the lobby area connecting the two towers of the breathtaking PETRONAS Twin Towers in Kuala Lumpur City Centre, Dewan Filharmonik PETRONAS (DFP) is the country's first dedicated classical music concert hall.

Designed by architects Cesar Pelli & Associates and acousticians Kirkegaard & Associates, DFP is modelled on the traditional shoebox shape of the great European concert halls, which is universally acknowledged as the finest acoustic environment for the performance of classical music.

As the only purpose-built concert hall in Malaysia, DFP aims to be the focal point for classical music enthusiasts, as well as other music styles such as jazz, ethnic and world music. DFP achieves this by presenting outstanding performances by its resident orchestra, the Malaysian Philharmonic Orchestra (MPO).

A complete array of facilities are available for the safety and convenience of the DFP audience, which includes wheelchairs and ramps for the disabled, and induction loops that relay the performance to those with hearing aids.

DFP's strategic location in the most prestigious business and leisure district makes it a 'must-visit' destination for international business, leisure travellers and Malaysians alike. Discover the many wonders of DFP by joining our Hall Visit which is available by appointment. After the visit, drop by our Box Office to find the perfect keepsake for you and your family from a wide array of merchandise and MPO CDs on offer.
